## Oconto Falls Area *Trail System*

Design and printing donated by  
HSHS St. Clare Memorial Hospital

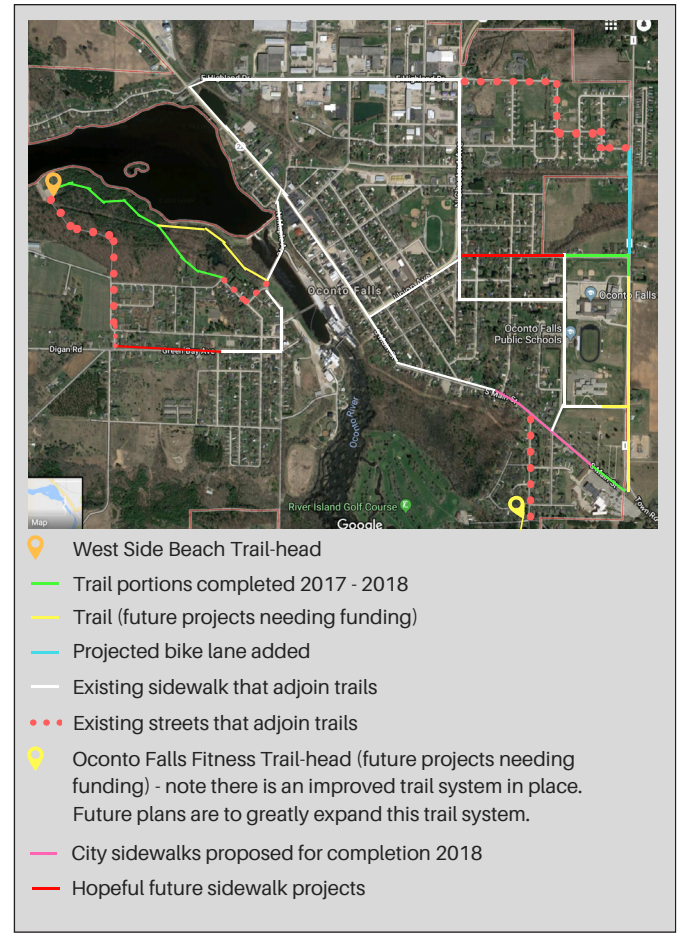

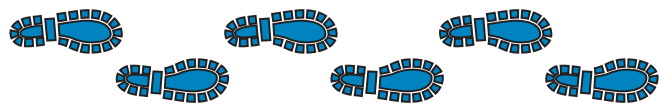

*Help us develop a safer and healthier community, one step at a time.*

In 2014 it was established that our community needed a safe walking path to connect residential neighborhoods, provide safe and sensible routes to school and around the city, and increase the amount of time residents spend being active. As a result, the Oconto Falls Area Trail System organization launched an initiative to complete a trail system in Oconto Falls. These trails are being developed in phases with the largest phase, phase 1, providing 5,515 feet of trails and sidewalks.

With support from area businesses and individuals, our goal is to raise \$194,000 for the first phase. Future phases and maintenance dollars will be funded by the annual Run for the Trails Run/Walk held each year.

You can be part of our *safer, healthier* future!
